PROGRAMME INSTRUCTOR

ElectroMass
(Mr. Jimmy)

[Soundcloud.com/Electro-Mass](https://soundcloud.com/Electro-Mass)

Hailing from Bristol, UK, ElectroMass started his career playing live PA shows in and around Bristol, showing off his productions with live remixing and elaborate FX chains. His signature sound was soon noticed by promoters in London and he claimed a residency in the Brixton Jamm, London, as well as releasing records in the USA, UK and the Netherlands.

After a successful few years playing alongside acts like Koan Sound, Asa and Culprate, ElectroMass moved to Thailand to pursue a career in education and has worked in post-production sound for film, TV and animation. In Chiang Mai, ElectroMass has been a key player in organising the yearly festival, Jai Thep and is a partner in Synergy, one of the biggest monthly events in the area for underground electronic music. ElectroMass also leads the Ableton Live User Group for northern Thailand.
