# SUMMER CAMP 2026

## Weekly Theme

Week#1/ 6-10 July

## “Colors of the Wild”

Focus: Organic Chemistry in Art & Sustainable Creativity Children will explore the fascinating process of extracting pigments from the earth. Through hands-on workshops, students will learn to create masterpieces using natural dyes derived from flowers, leaves, coffee, and varying soil compositions. The curriculum includes traditional natural fabric dyeing techniques, blending scientific observation with artistic expression.

# SUMMER CAMP 2026

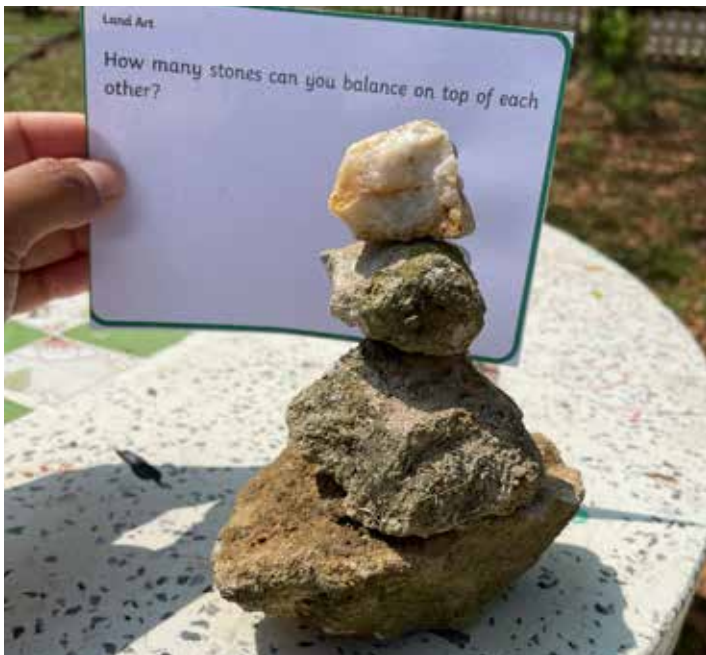

## Weekly Theme

Week#2 / 13-17 July

## “Mission Zero Waste”

Environmental Stewardship  
Focus: Sustainability, Upcycling & Civic Responsibility This week focuses on environmental conservation and the "Circular Economy" concept. Students will engage in creative upcycling projects, transforming discarded materials into functional items. The program emphasizes community service through organized nature clean-up activities, instilling a deep sense of environmental responsibility

# SUMMER CAMP 2026

## Weekly Theme

Week#3 / 20-24 July

## “ The Wild Wood Expedition”

### Botany & Traditional Craftsmanship

Focus: Horticulture, Forestry & Cultural Heritage A journey into the heart of the forest. Participants will gain practical skills in horticulture by planting trees and decorating their own eco-friendly pots. The week also features "Bamboo Weaving," introducing children to traditional craftsmanship, alongside guided forest expeditions to study local flora and woodland ecosystems.

# SUMMER CAMP 2026

## Weekly Theme

Week#4 / 27-31 July

## “Splash & Explore”

### Aquatic Ecology & Conservation

**Focus: Marine Biology & Hydro-Studies** An immersive exploration of aquatic environments. Students will analyze natural water sources and observe the biodiversity of aquatic life through field studies and interactive water-based educational games. The week culminates in a specialized educational tour of an aquarium to broaden their understanding of marine conservation.
